

HNO Service Portfolio

Our Host Network Operator (HNO) service portfolio is organized into four bundled groups of services based on developmental needs. These services are designed to meet any HNO's unique requirements by combining our excellent position in the mobile industry with our deep knowledge of the mobile ecosystem.

We have extensive hands-on experience from start-up operators, mobile vendors, a mobile data laboratory, as well as MVNO and MVNE projects from North America and Europe.

Our objective is to guarantee a clear commercial benefit for HNOs to share their network with MVNOs and execute sound commercial agreements between MVNOs and MVNEs.
